This text enables introductory-level readers to gain an understanding of the world's religions by discussing their history, stances on contemporary issues, and how they compare and contrast to each other. A Concise Introduction to World Religions, second edition, is a contributed volume that examines the development of major global faith traditions and movements. Based on the best-selling two-volume set World Religions: Eastern and World Religions: Western Traditions, this text explores

the origins, central teachings, divisions and branches, rituals and practices, influences on culture, and responses to modern challenges for each tradition in an accessible and engaging style. The first of its kind, this book contains 3,816 references to the music and dance of the world's religions, large and small, tribal, regional, and global. This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated, but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent. Reflecting the tenets of such world religions as Christianity, Judaism, Islam, Buddhism, Confucianism, and Baha'i, this classic study gathers selections from the religious writings of the world to show the beliefs and universal truths they have in common. Reprint. To live in a global society and make sense of world events requires more than a cursory understanding of world religions and the roles they play. This fascinating, in-depth, academic study of the five major religions

focuses on each group's response to some of the most critical social issues of our time: ecology, peace, and women's rights. The author also highlights individual religious "heroes" and provides links to numerous digital sources for further research, making this a particularly timely and personalized approach to the study of world religions and their far-reaching impact at every level of society. Book jacket. For billions of people, having a religious belief system provides purpose in life. For some, religion serves as a guide for moral behavior. Today's world is one in which our understanding of world religions is both understatedly important, as well as increasingly complex. After many years exploring the foundations of various world religions, Jason Boyett has written this comprehensive, easy-to-understand exploration of the twelve major world religions through a meticulous, yet unbiased lens. 12 Major World Religions offers an impartial look at where each of these belief systems intersects, how they differ, and why some have been—or are currently—misunderstood. The major religions of the world are a mystery to many high school teens. Now you can help them unlock the doors of these traditions with our new text, World Religions: A Voyage of Discovery. The book is an introductory survey that helps eleventh and twelfth graders understand the people, dimensions, and religious principles of the world's major religions. The textbook includes a chapter on each of eleven major world

religions, including Christianity, Islam, Hinduism, Buddhism, Judaism, and others. The text offers the Catholic perspective on interreligious dialogue, an overview of basic questions that religions address, and Ninian Smart's seven dimensions of religion. A glossary and word pronunciations in each chapter help students learn unfamiliar terms. In addition, the second edition of this text incorporates the following new features: a new chapter on modern trends in religion; new, more detailed maps; a new section on the Aztec religion of Mesoamerica; a sidebar in each chapter offering examples of the seven dimensions of religion; and review questions at the end of each chapter. Introduction to the world's religions that has been completely revised and updated. Revealing the significance of religion in contemporary life, *World Religions Today*, Fifth Edition, explores major religious traditions--Judaism, Christianity, Islam, Hinduism, Buddhism, South Asian religions, East Asian religions, indigenous religions, and new religions--as dynamic, ongoing forces in the lives of individuals and in the collective experience of modern societies. This unique volume accomplishes two goals: it connects today's religions to their classical beliefs and practices and focuses on how these religions have both radically changed the modern world and been changed by it. The book is enhanced by numerous pedagogical aids--text boxes, timelines, maps, illustrations, discussion questions, a comprehensive glossary

of key terms, and suggestions for further reading--and more than 200 photographs. For a wealth of additional teaching and study resources, visit www.oup.com/us/esposito. *World Religions Today*, Fifth Edition, is also available as two separate volumes: *Religions of Asia Today*, Third Edition: 978-0-19-999964-4 *Religions of the West Today*, Third Edition: 978-0-19-999963-7 The idea of this book first occurred to me when my son was ground up. He like to know much about Jesus Christ and His relationship with other world's religions.I decided then that I would try to gather some information about the life of Jesus Christ, Who have left us with such a rich and precious legacy by His conduct and His words.This book is aimed to anyone who want to know much about other religious and their views about Jesus Christ.The book is written by highly qualify author who have taught history and religious at many levels at our educational system. In written this book, I left no stone unturned in digging into result of the most resent researchers in this special topic. Please don't forget to make a comment about this book and please, all enquiries should be directed to: editancefane@gmail.com This anthology of scriptures from the world's living religions offers selections that vary in length from a few paragraphs to 10 pages, accompanied by brief introductions that discuss the nature and scope of scripture within each religion as well as the history of each scripture presented. The anthology is also available in two

volumes:*Scriptures of The East*contains sacred writings of Hinduism, Jainism, Buddhism, Sikhism, Confucianism, Taoism, Shinto, and indigenous religions of the East;*Scriptures of The West*contains sacred writings of Zoroastrianism, Judaism, Christianity, Islam, the Baha'i faith, and indigenous religions of the West. Religious beliefs and customs can significantly shape patients' and professionals' attitudes toward, and expectations of, healthcare, as well as their wishes and personal boundaries regarding such daily matters as dress, diet, prayer and touch. Undoubtedly, the sensitivity with which clinicians communicate with patients and make decisions regarding appropriate medical intervention can be greatly increased by an understanding of religious as well as other forms of cultural diversity. This second edition of a popular and established text offers healthcare students and professionals a clear and concise overview of health beliefs and practices in world religions, including Hinduism, Buddhism, Jainism, Confucianism, Taoism, Sikhism, Islam, Judaism, and Christianity. Adopting a consistent structure, each chapter considers the demographic profile of the community, the religion's historical development, and key beliefs and practices, including views regarding health and sickness, death, and dying. Each chapter also ends with a useful checklist of advice on what to do and what to avoid, along with recommendations for further reading, both online and in print form. The book's clear and consistent style ensures

that readers with little background knowledge can find the information they need and assimilate it easily. A brand new chapter on applications and a set of new case studies illustrating issues in clinical practice enhance this wide-ranging book's value to students and practitioners alike. This masterful survey of world religions presents a clear and concise portrait of the history, beliefs, and practices of Eastern and Western religions. The authors, both respected scholars of world religions, have over 50 years of combined teaching experience. Their book is accessibly written for introductory classes, can be easily adapted for one- or two-semester courses, and employs a neutral approach for broad classroom use. The third edition has been revised throughout, with updated material on the history and contemporary configurations of each tradition and new sections addressing gender, sexuality, and the environment. It also includes effective sidebars, photographs, timelines, charts, calendars, glossaries, and a spelling guide. Online resources through Baker Academic's Textbook eSources include Powerpoint/Keynote slides, new maps and videos, and a large question bank of multiple-choice test questions (available to professors upon request). This book is the result of concerted teamwork among the academia staff of the Department of Religious Studies, University of Nairobi between 1986 and 1990. The Project was prompted by the necessity to produce relevant and comprehensive textbooks for the

undergraduate degree programme. The book has remained in demand, confirming the relevance and quality of its content covering the whole range of major religions of the world with extensive geographical and historical scope. It includes a specific section on African Religion, thus placing the African Religious Heritage within the mainstream of the comparative study of the world's religions. The five-volume series was designed for the World Exposition Expo 2000 in Hanover, Germany to contribute to the dialogue of the world religions. After an introduction to the conflict of religion and the mission of a philosophy of the world religions, scholars of philosophy and religion from the east and west ring the three themes through the perspectives of Hinduism, Buddhism, Judaism, Christianity, and Islam. The 12 talks were presented to the first discourse, in Emden, Germany in September 1999. There is no subject index. Annotation copyrighted by Book News, Inc., Portland, OR In an era plagued by religious conflict, the Third Edition of *Gods in the Global Village* directly responds to issues of social problems prevalent in the world today. Using an engaging, thought-provoking style, author Lester R. Kurtz focuses on the relationship among the major faith traditions that inform the thinking and ethical standards of most people in the emerging global social order. This book focuses on a central aspect of that common crisis. A major assumption of this book is that all knowledge is shaped by the social context of the knower;

therefore, both religious traditions and our studies of them are shaped by the context in which we construct them. The author argues that religious pluralism will be a necessary precondition of the global village for the foreseeable future. The question that faces us as a human community is not "Which religious tradition is true?" or even "Is any religious tradition true?" but rather "How can we enable the various religious and secular traditions to coexist peacefully on the planet?" The text supports the belief that the sociology of religion—itsself a pluralistic discipline—can provide invaluable insight into the most pressing problems of our time. The aim of this book is to make a major contribution to the field of religious studies while at the same time paying tribute to the work of Wilfred Smith. Although the basis of the chapters is provided by Smith's themes of faith and tradition and Smith's approach to the study of religion, this book stands in its own right as a significant addition to both content and method in the global history of religions. First published in 1984, it includes contributions by Geoffrey Parrinder, Annemarie Schimmel, George Rupp, Ninian Smart and others. For one-, two-semester, three-quarter, and upper-level undergraduate courses in World Religions. Refined by over 40 years of dialogue with religious experts/practitioners around the world, this text is widely regarded for its fairness and accuracy. It is also the most thorough, yet concise history of world religions

available in a single volume, treating many subjects neglected in other texts. The book's depth, breadth, and organization free instructors from having to cover everything in lectures, enabling them to use class time for questions, discussion, and their own favorite materials. Understanding the differences between people's religious beliefs is now more important than ever. Each religion is brought vividly to life with photographs, detailed illustrations and straightforward informative text. Ages 8+ years. Since Thomas Aquinas first defined theology as revelation--or the rational elucidation of revealed truth--the idea has played a fundamental role in the history of Western theology. This book provides a new and detailed investigation of the concept, examining its nature, sources, and limitations in all five of the major scriptural religions of the world: Christianity, Judaism, Islam, Hinduism, and Buddhism. Beginning with an examination of the nature of theology, Keith Ward looks at religion in its early historical manifestations, and considers the idea of revelation as found in the great canonical traditions of the religions of the world. In the process, he develops a distinctly Christian idea of revelation as divine self-expression in history. Finally, he explores how conceptions of revelation must be revised in light of modern historical and scientific thought, and proposes a new and positive theology of revelation for the future. Religion and Revelation includes discussions of the work of most major theologians including Aquinas,

Tillich, Barth, Temple, Frazer, and Evans Pritchard. It should be of interest to scholars and students of comparative religion, philosophers of religion, theologians, and anthropologists. This leading textbook for world religion is designed to help students in their study and research of the world's religious traditions. Known and valued for its balanced approach and its respected board of consulting editors, this text addresses ways to study religion, provides broad coverage of diverse religions, and offers an arresting layout with rich illustrations. Introductory sections on understanding religion and the religions of antiquity lay the foundation for the study of the numerous religious traditions highlighted in the volume, including indigenous religions, Hinduism, Buddhism, Jainism, Judaism, Christianity, Islam, Sikhism, and Chinese, Korean, and Japanese religions. The user-friendly content is enhanced by charts of religious festivals, historic timelines, updated maps of the world's religions, and a useful glossary. Both historical overviews and modern perspectives for each religion are included. This third edition has several updates, including a new design, a new section on women and religion, and a newly revised section on religions in today's world. Chapters on ancient religions, primal religions, Hinduism, Buddhism, Judaism, Islam, and Christianity. Over 200 photos and a glossary. Retaining all the beloved qualities of Huston Smith's classic *The Religions of Man* and the

current fully revised and updated *The World's Religions*, this stunning pictorial presentation refines the text to its wonderful essentials. In detailed, absorbing, richly illustrated, and highly readable chapters on Hinduism, Buddhism, Confucianism, Taoism, Islam, Judaism, Christianity and primal religions, we find refreshing and fascinating presentations of both the differences and the similarities among the worldwide religious traditions. The approach is at once classic and contemporary, retaining all the empathy, eloquence and erudition that millions of readers love about the earlier editions, while being edited and designed for a contemporary general readership. This delightful marriage of winsome text and remarkable pictures vividly brings to life the scope and vision of Huston Smith's expertise and insight. "HarperSanFrancisco". Index. This classic companion to *The World's Religions* articulates the remarkable unity that underlies the world's religious traditions. This book features a number of different articles and essays that focus on women as active agents of their spiritual lives—a topic that is often overlooked in most other world religion books. It explores how women from many parts of the world have thought about, acted, and have been treated as members of a religious tradition. Investigates how women of a variety of religious traditions (e.g., Hinduism, Buddhism, Islam, Christianity, etc.) practice their religion, how their beliefs differ from men, and how they have carved out their own place

within their religious tradition. For anyone interested in how women are shaped by and how they shape the various world religions. Drawn from the world's religions, this work takes the reader on a pilgrimage to the heart of prayer and reveals why prayer is the essence of the human condition. Created by two of the field's leading experts, this unique introduction to international religious demography outlines the challenges in interpreting data on religious adherence, and presents a contemporary portrait of global religious belief. Offers the first comprehensive overview of the field of international religious demography - detailing what we know about religious adherents around the world, and how we know it Examines religious freedom and diversity, including agnostics and atheists, on a global scale, highlighting trends over the past 100 years and projecting estimates for the year 2050 Outlines the issues and challenges related to definitions, taxonomies, sources, analyses, and other techniques in interpreting data on religious adherence Considers data from religious communities, censuses, surveys, and scholarly research, along with several in-depth case studies on the global Muslim population, religion in China, and the religious demography of recently created Sudan and South Sudan Argues against the belief that the twentieth-century was a 'secular' period by putting forward new evidence to the contrary Provides resources for measuring both qualitatively and quantitatively important data on the world's

religious situation in the twenty-first century The World's Religions offers a fascinating insight into a wide range of faiths, their history and their followers. In the richly illustrated new edition of this popular book, religions are described through their symbols, rituals, followers, architecture and art. References, statistics, maps and pictures have been updated and added. The text has been thoroughly revised to highlight recent developments, such as the spread of Islam, African-American and Hispanic-American religious experience, and women priests. Uses narrative, maps, and photographs to provide a view of the world's religions in their geographical and historical contexts. "Evil" in World Religions is an authoritative examination of the similarities and differences in how many of the world's religions respond to the issues of evil and suffering in the world. After proposing definitions of "religion," "evil" and other useful religious concepts, this study begins with the world's oldest religions-Hinduism, Judaism and the dualistic faiths of Zoroastrianism, Mithraism and Manichaeism. The study continues to an analysis of the beliefs of four Asian faiths-Buddhism, Confucianism, Taoism and Shinto. Finally, the book examines Christianity and Islam, which arose in the ancient Near East in Israel and the Arabian Peninsula, and then traditional African religions, particularly of the Yoruba and Igbo people. "Evil in World Religions" is an invaluable resource for scholars and students of comparative religion and theodicy. Every major

religion exalts certain individuals who occupy a dual role. On the one hand they serve as exemplars of virtue to be imitated, and on the other hand they stand removed from other mortals, privileged and unique. Christianity knows them as saints, and in the study of religion the term has been taken over and applied to similar figures in other traditions. The essays in this volume analyze the role of the saint in Judaism, Christianity, Islam, Hinduism, Buddhism, and Confucianism, providing both a comparative and an interpretive view of sainthood. The notion of sainthood is problematic in two ways. First, can the category be usefully applied to individuals in religious traditions other than Christianity? How has it manifested itself, and what differences are there in the various manifestations of sainthood? Second, where individuals are considered to have risen above the norms in these different traditions, how is it possible to resolve the tension between the saint's imitability and his or her otherness, between imitating and venerating the saint? The authors consider these questions in relation to a wide range of individuals in all the major traditions. Allah of Jesus?' is het vervolg op Nabeel Qureshi's succesvolle eerste boek 'Ik zocht Allah en vond Jezus'. Qureshi schrijft over zijn zoektocht naar de antwoorden op vragen als: de Koran of de Bijbel? Mohammed of Jezus? Jihad of de kruistochten? Stierf Jezus aan het kruis en stond hij op uit de dood? Is Mohammed een profeet of God? Een leerzaam en

persoonlijk boek over een thema dat nu actueler is dan ooit. Nabeel Qureshi groeide op in Pakistan en verhuisde later naar Amerika.

Hij groeide op in een liefdevol islamitisch gezin, maar bekeerde zich na steeds sterker wordende twijfels tot het christendom. Hij groeide uit tot een bekende auteur die de islam van binnenuit

kent.
